FREQUENTLY ASKED QUESTIONS

1. What is an evacuation from a dangerous area?

- In accordance with the AFMAN 65-116 V1 Chapter 79, 79.1. Para 1 and JTR Chapter 6 Para 1. An evacuation is caused by unusual or emergency circumstances.

2. What military regulations provide guidance for evacuation allowances?

 Joint Travel Regulation (JTR), Chapter 6 is used for military and civilian employee and their dependents. The Joint Travel Regulation can be found at <u>http://www.defensetravel.dod.mil/Docs/perdiem/JTR.pdf</u>

3. Who can authorize or order an evacuation or limited evacuation?

- The officials are listed in the JTR Table 6-2. In most cases, this is the installation commander.

4. What is the difference between "evacuation" and a "limited evacuation"?

- IAW the JTR Chapter 6, 060101 A., C., and JTR Chapter 6, 060410 the key difference between an evacuation order and a limited evacuation order is the duration of the evacuation. An evacuation order is designed to be long term. A limited evacuation is short term in duration and evacuates dependents from their residences to the nearest available accommodations. Nearest available accommodation could be within the same city or town or another state.

5. Are hurricane evacuations considered a normal evacuation or a limited evacuation?

- Hurricane evacuations are ordinarily limited evacuations.

6. Do I create my travel orders in DTS prior to evacuating?

- No. Do not make any orders in DTS for an evacuation.

7. Is use of GTC Mandatory?

- In the event of a mandatory evacuation, use of the Government Travel Card (GTC) is mandated for authorized members, to include obtaining necessary ATM advances. Dependents are not authorized use of the GTC. Members without a GTC and dependents of deployed or TDY members are entitled to a cash advance.

8. Are AirBnB and similar websites authorized for lodging?

- Yes. For evacuations, AirBnB and similar websites are authorized, but receipts for lodging reimbursement are required.

9. What if I voluntarily evacuate? Will my expenses be reimbursed?

- IAW the JTR Chapter 6, 060101a, if a member evacuates voluntarily, they are in leave status. If they are later affected by a mandatory evacuation, they are entitled to per-diem and travel from that point forward, but not to any retroactive per-diem. Eligibility for reimbursement is based on evacuation orders.

10. If local government officials issue an evacuation order and the installation commander has not issued an evacuation, do I evacuate? Will I received my entitlements?

- JTR regulations only determine when entitlements begin for members and civilian employees. The local government officials cannot dictate when entitlements start for the federal government, even if they order an evacuation. Entitlements will only begin after the installation commander implements an evacuation order. This does not mean that members, civilian employees and families cannot evacuate, but entitlements will not begin without an evacuation order from the installation commander.
- The installation commander and the Emergency Operations Center director will be working closely with local municipalities for consistency on evacuations.

11. If I make a hotel reservation and the base does not get evacuated, will I get reimbursed any cancellation penalties?

- No. Entitlements can only be paid when there is an evacuation order by the installation commander and an accompanying travel order.

13. What are the military member's allowances if on leave at the time the evacuation order is issued?

- If the leave did not terminate prior to the order to return, the member remains in a leave status and per diem would not be payable. If leave terminates while the evacuation order is in effect; then the member is placed in a TDY status at the leave point if the commander determines that the member should not return. There is no authorization for transportation allowances.

14. What if the member is slated to separate or retire during an evacuation?

- As long as the member is on active duty, the evacuation order applies and the member is entitled to reimbursement. Members may need to push their final duty date to the right to ensure processing of all entitlements.

15. Can I go anywhere and still get paid?

- No, the order authorizing the evacuation will specify certain distances of travel. The minimum distance ensures evacuees remain out of harm's way. The maximum distance is designed to reduce unnecessary travel expenses. In order for you to be reimbursed you must evacuate beyond the minimum distance annotated on the EVAC orders. Travel within the designated mile restriction will be reimbursed

16. What are the allowances if members and/or dependents go outside the established safe haven?

- IAW the JTR Chapter 6, Table 6-14a, individuals must travel to the specified safe haven area unless the authorizing/ordering official allows evacuees to travel to an alternate location, but limits the cost to the authorized location. Authorization to relocate to another area must be stated in the evacuation order or amendments.

17. What are the members and/or dependents allowances if they return after the termination date?

- IAW JTR Chapter 6, 060207 2a, evacuation allowances will not exceed the termination date if instructed to return. Dependents that voluntarily remain past the termination date are constructed back as if they had traveled on the termination date.

Note: In some cases the travelers may not be able to return home within the time limit of the evacuation termination. Normally the traveler needs to return within 24 hours. In a case where a traveler was not able to make it back in the set time, the Finance Office can approve the additional travel time.

18. I just want to clarify the mileage rate payable for military dependents; civilian employees/dependents driving separately...the rate for all should be the TDY rate of \$0.67, correct?

- Correct. Also, mileage will be paid based on odometer readings IAW JTR Chapter 6, Table 6-14. Odometer readings can be annotated on the return voucher for exact mileage reimbursement. If this is not done then reimbursement for mileage will be calculated by system used by AFFSC. (That system does not account for closed roads/detours). Reimbursement for mileage is not authorized for the passengers in the vehicle.

19. Are military members and their dependents authorized 2 POVs (Example: military member and spouse both evacuate at the same time in 2 cars...are both paid at the TDY rate of \$0.67.)?

- IAW JTR Chapter 6, 060202, Table 6-14 2b, 2c. JTR 050203 B. 2. Each category of travel is treated separately,

1) POV reimbursement is not limited to 2 POVs for evacuation. It is limited by the number or vehicles you have and how many authorized dependents drive them.

- 2) If the dependents evacuate using a POV, the operators are paid \$.655/per mile for limited evacuations.
- 3) If the member is ordered TDY, they are paid under TDY rules and are paid \$.655/mile for POV travel.
